To the Citizens of Kuna,

On February 3, 2009, the Kuna City Council adopted a new method of assessing properties for pressurized and gravity irrigation to conform to Idaho State Code Section 50-1801, et. seq. Assessment rates have not changed since the early 1990's while expenditures are now higher than income. The enclosed billing statement reflects the change in assessments which are now calculated based on parcel size, a method more equitable than the previous assessments. The assessment is due April 1st of each year and must be paid no later than July 1st of each year.

In addition to the revised pressurized and gravity irrigation assessment, a \$.75 charge has been added to utility bills to provide funds for street lights and their maintenance. Costs for repair of the lights, often due to vandalism, have become excessive and can no longer be absorbed by other revenues in the City's budget.

J. SCOTT DOWDY, MAYOR
