

# Refuse News

- ❖ We at J&M Sanitation would like to take a moment to thank our customers for the opportunity to serve you, and give some helpful tips in regards to the services we provide.
- ❖ Curbside recycling is offered at no additional cost to all residential customers as part of the basic service we provide.
- ❖ We ask that all customers please have trash and recyclables within 2ft of the curb by **7 AM** in the morning to ensure pick-up.
- ❖ **Please completely fill your trash cans or tip cart to ensure you are putting out the fewest number of cans and bags at the curb. This makes the collection process more efficient.**
- ❖ **We would prefer that grass clippings are emptied into J&M Sanitation provided tip carts or customer cans versus placing bags on the curb.**
- ❖ If you provide your own cans we ask that they be no larger than 35 gallons in size. All cans placed at the curb are subject to a 65 lb. weight limit. All bags placed at the curb are subject to a 35 lb. weight limit.
- ❖ Tip Carts are available from J&M Sanitation. These carts have wheels, lids, handles, and are 95 gallons in capacity, or equivalent to three small cans. Please call our office at 922-3313, for details.
- ❖ Tip carts and recycling bins as the property of J&M Sanitation, need to stay at the residence they are delivered to.
- ❖ Thank You, our valued customers for your understanding and participation.
